AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD,
And for the speedy cure of the following complaints:
Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.
OAKLAND, Ind., 6th June, 1859.
J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully Yours,
ALFRED B. TALLEY.
St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.
Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.
Bronchocele, Goitre or Swelled Neck.
Zebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre* —a hideous swelling on the neck, which I had suffered from over two years."
Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.
Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."
Edward S. Marrow, of Newbury, Ala., writes: "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking four bottles eight weeks no symptom of the disease remains."
Syphilis and Mercurial Disease.
NEW ORLEANS, 25th August, 1859.
DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.
I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.
Fraternally yours, G. V. LARIMER, M. D.
Rheumatism, Gout, Liver Complaint.
INDEPENDENCE, Preston Co., Va., 6th July, 1859.
DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.
Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to made a new man of me. I feel young again. The best that can be said of you is not half good enough."
Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.
A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.
Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.
Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.
Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.
This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has not all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

TO THE UNFORTUNATE
NEW REMEDIES, NEW REMEDIES.
Dr Gibbon's Dispensary,
616 KEARNEY STREET, NEAR Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis, in all its forms, Seminal weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.
DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street, St. Mary's, Camb. Place, Pad.; Lock, Harrow Road; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street
DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.
Horrible Diseases.
How many thousands of persons, both male and female are there, who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of those horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.
Seminal Weakness.
Seminal Emissions, the consequence of self-abuse. This Solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.
MARRIED MEN.
Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them; nor delay to obtain immediate relief.
DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.
Cured at Home.
Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.
Address Dr J. F. Gibbon, 616 Kearney street, corner Commercial, San Francisco.—Post office box 252.
Remember to put BOX 252 on the letter.
Consultations FREE.

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY
Holloway's Ointment.
This wonderful Ointment acts like magic in relieving caring old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.
Gout and Rheumatism.
To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe.
Diptheria, Bronchitis, Sore Throats, Coughs and Colds.
his class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.
All Varieties of Skin Diseases, Scrofula and Scurvy.
This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained
Dropsical Swellings.
Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.
Piles, Fistulas, and Internal Inflammation.
These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect he known cure without the annoyance of explaining their ailment to anyone
Disorders of the Kidneys, Stone and Grave'
Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a to rough cure.
Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases

EXTRAORDINARY
CURE OF A COUGH.
The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturist and land agent, residing at Edmonton, Middlesex:—
"Nightingale Hall, Edmonton.
"Dear Sir,—I have recently suffered much from a most violent cough, proceeding from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken Having seen the good effects of your Balsam of Aniseed in several members of my family, I purchased a small bottle, and, when going to bed at night, took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well, and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.
"I am, dear Sir, yours very truly,
"WM. BOARDS.

THE BRITISH COLONIST.

Thursday Morning, Dec. 3, 1868.

TO ADVERTISERS.

Transient Advertisements must be paid for in advance to insure insertion.

TO AGENTS.

Settlements of accounts will be required monthly, or the supply of papers will be discontinued. The daily and weekly issues will be furnished at the lowest cash rates and no exception will in future be made to this rule.

If anything is to be done during the coming season towards securing the Colony frequent and regular communication by direct steamer with San Francisco, the present is the most opportune time of any for agitation by those interested in our growth and prosperity. Last Spring San Francisco was crowded with immigrants, many of whom would gladly have availed themselves of any cheap and speedy method of reaching the Colony; but who were debarred by the high rates of fare and the infrequency of communication, from coming northward. The necessity of Government subsidizing a suitable *independent* boat was frequently and strongly urged upon them a twelvemonth ago; but the reason given for their refusal to do so, was the lack of funds; and after several months spent in negotiations upon the subject, the old line got the subsidy, and the prospect of opposition was destroyed. Now, the case is different. The increase of the revenue and the proportionate decrease in the expenditure, which it is claimed on semi-official authority have occurred, enable the Government to come forward with cash in hand and undertake the subsidy of one or more steamers to carry the mails, and passengers and freight at moderate rates (say twice a month) between this port and San Francisco. We are certain that every merchant of standing would pledge himself not to travel nor ship freight by any other line; and as the company who control the Ocean Steam Navigation on this coast from Mexico to Alaska would not resign any portion of their traffic until after a severe struggle, they would immediately put on at least one steamer, larger and better than any now running here, to compete with the subsidized boat. By this arrangement the Colony, after granting a subsidy sufficiently large to insure the new line its running expenses, so as to enable it to clear the sums received for passage and freight, would be immensely the gainer from the low rates that would at once prevail. The good effects of opposition upon the traffic between this Colony and the Columbia River, are even now being felt, and ought to prove the means of convincing our Government of the necessity of encouraging a similar line between this port and San Francisco. As we said at starting, the present is the best time for agitation. If the matter lie dormant until the Spring, it will be midsummer before any decision is arrived at; and then it will be too late for any good to be effected in 1869.

Lord Stanley's "little bill" of £9,500,000, is an offset to the Alabama claim, and is founded upon damages sustained by the property of British subjects during the Civil War and the Fenian raid into Canada. The amount claimed by the Americans is $32,000,000, principally for shipping burned by Confederate privateers. The present American administration appears to desire an amicable settlement of the difficulties between the two nations, and the new member to the Court of St James was the first to hold out the olive-branch, which was at once accepted by the Imperial Government. The preliminary negotiations, thus far, have been of a satisfactory character to the mass of people on both sides of the Atlantic; and the American Minister has been most enthusiastically received and hospitably entertained by the British Government and people; and although he seems to have given offence to a few hot-heads among his countrymen by his cordial reception of Laird (the builder of the Alabama and other privateers) his pacific policy has been approved by his Government, and as he has reached a time of life when political aspirations generally cease (Mr Johnson is 76 years of age), this approval is all he probably concerns himself about. On the 4th of March next the President elect will assume the duties of office; and Mr Seward is evidently aiming to leave a "clean slate" behind him. So far as the Alabama claims go, we earnestly trust that this aim may not be frustrated.

Wanted.—Fifteen thousand of Hibben's Pacific Rail Road men for the consumption of Heywood's celebrated Pork Sausage, the Elixir of Life. It has been admitted by all the Medical Students of the Theatre Royal that Heywood's Pork Sausage is the only safe and sure remedy for all provailing complaints. Three links fried nicely brown and taken internally every morning for breakfast will relieve hunger and restore the hair to its natural color. These unequalled and remarkable sausages are kept at all respectable first class Hotels, Restaurants and Boarding houses. Go in, if you want black hair. *

Overland Railway.—There are 15,000 men employed in the construction of the Overland Railway. It is encouraging to those who are in constant communication with the Eastern Markets to know of such an early prospect of greater future dispatch. Had this line been completed three months since, we should have been able before this date, respectfully to call the attention of the public to the great variety of Styles, and the Choice Patterns of the best Sheffield Pocket Cutlery, Scissors, &c., ex 'Bolivia.'—T. N. Hibben & Co. *

Municipal Council.

Council met on Tuesday, 1st Dec, 1868. Present the Mayor, Councillors Allatt, Gibbs, McKay, Russell, Allsop and Gerow.

Minutes of previous meeting read and adopted.

A communication from the Secretary of the Spring Ridge Water Works Company, asking permission to make excavations on Government street, near Piper's Saloon. On motion leave was granted, subject to the supervision of the Street Committee.

A communication from H T Mann complaining of the muddy state of Yates street opposite his store, and requesting the early interference of the Council for the removal of nuisance complained of. On motion ordered to be received and referred to the Street Committee to take the necessary action.

An account from Willis Bond of $16, for the construction of a culvert at the intersection of Johnson and Broad streets, read, and on motion referred to the Street Committee for their report at the next meeting.

On motion the Council granted further time to the Cemetery Committee to prepare and submit their Report.

A Report from the Street Committee respecting the side-walk bridge opposite the Tiger Engine House, read, and on motion, said Committee were instructed to take the necessary action in the matter.

A Report from the Sanitary Commission respecting Indian dance houses in the city was read. The Committee were instructed to take the necessary steps for their temporary suppression.

His Worship drew the attention of the Council to the necessity of making certain repairs to the drain on View street.

The Council instructed the Street Committee to examine the street crossings throughout the city, and wherever found defective to have them at once removed unless repaired by the proper parties.

On motion it was resolved to select the most available of the rubbish deposited on Broughton street for the use of that street where most needed, and the remainder to be removed.

The Chairman of the Committee on By-Laws reported progress. The Council then adjourned until Tuesday next, at the usual hour.

POLICE COURT.—A P Perry, first mate of the Active, was arrested on Tuesday night for firing a pistol in the streets, and put under nominal bail to spear in a week. It is only just to Mr Perry, who is a most respectable young man, to say that he shot at a dog which had previously attacked him. No doubt shooting off pistols in the streets, to the danger of all in the neighborhood passing at the time, is a reprehensible practice, but really our citizens are so annoyed by the raids of dogs, hogs, cows, etc, that we are somewhat surprised more shooting has not occurred. We have our eye now on one or two canines that would be the better of an ounce of lead to (as Carlyle says), improve them off the face of the earth. The authorities should take up the consideration of this annoyance without further delay, and the Municipal Dog Tax sigorously enforced.

LATER FROM CARIBOO.—The steamer Enterprise returned from Fraser River last evening, bringing about 50 passengers and news from Cariboo to the 23rd ult. Five companies on Mosquito Gulch were at work taking out pay. The Minnehaha company had reached a streak in their lower shaft which yielded larger pay than had previously been taken from their marvellously rich claim. Several companies on William Creek continued operations with flattering results. The snow in the diggings was about 1½ feet deep. On Bald Mountain it was about 2 feet deep, and from Quesnelle down to the 150 mile post the road was covered with ice, but traveling continued good.

FROM SITKA.—The steamship Alexandra, Capt Erskine, arrived in our harbor yesterday, having been out thirteen days from Sitka, owing to the strong S E wind she experienced the whole trip down. She is bound to San Francisco, with twenty-seven passengers and a cargo of furs and skins; and will proceed on her voyage as soon as she takes on board a few tons of coal. Captain Erskine reports Sitka to be exceedingly dull—in fact, we could not get news enough about the place to make a decent item. Annexation, so far, does not seem to have done much for Sitka.

ANTI-DIVORCE, is the name of the newest style, Gents' Neck Tie; these together with a Large Stock of Winter Clothing, Beaver Suits, Pants, Hats, Caps, Shaker and Oregon Underclothing, Boys' Suits, Shirts, Socks, &c., have just been opened out at ADAMS & BEAVEN'S New Clothing Store, Government street, which they are selling cheap as usual. *

MEMBER FOR KOOTENAY.—Late news received *via* Portland reports Mr E Dewdney returned to the Council to represent the Kootenay district.

STEAM FIRE ENGINE.—A portion of the machinery of the new Tiger Engine was left behind, it is said at San Francisco. His Excellency the Governor, yesterday, donated $100 from his private purse towards meeting the deficiency. It is to be hoped that private individuals will be correspondingly liberal when called upon by the Committee.

SPLENDID ANTLERS.—Some magnificent elk antlers were exhibited for sale yesterday on Store street. Two pairs, besides being remarkably regular in growth, measured over forty inches in the widest part of the spread. The horns were brought from Washington Territory.

CORRECTION.—In yesterday's Police report, King is made to appear as defendant, and fined $10; it should have been Fitzallen. The fracas arose about some wood.

A TELEGRAM received yesterday announces the arrival at San Francisco of Mr Hankin, the new Colonial Secretary.

BARNARD'S EXPRESS STAGES, after this date, will leave Yale for the Upper country about the 1st and 15th of each month.

A MOVEMENT is on foot to remove the Mechanic's Institute to Occidental Building.

THE steamer Isabel yesterday towed to Burrard Inlet the bark Mary Belle Roberts.

NEW WINTER GOODS—Received per Express yesterday at VICTORIA HOUSE their usual assortment of Fall Millinery, comprising the latest styles in Hats and Bonnets, Trimmings and flowers, Chignons and Head Dresses, &c. A case of choice Furs also received—embracing Sable, Gribe and other fashionable kinds. A few elegant articles suitable for presents, such as Lace Trimmed Handkerchiefs, Collars, Portmonnaies, Reticules, etc, also on hand. *

THE NEW COLOURS.—The fashionable shades in Europe this season are the Florence—a rich ruby; the Grenat a darker shade; a very brilliant Green—and various tints of Amber. Some very choice goods in these beautiful colours have been received at the London House by the Continental. *

Guano.

EDITOR BRITISH COLONIST:—In your issue of November 30th, J D P calls attention to the desirability of the importation of guano. It is not my intention to dispute his reasoning, but to draw attention to the shameful waste of manure in this Colony. The ashes of wood are as good as manure for most agricultural purposes as can be desired, and yet no one takes the trouble to save, and few show any desire to use them. For grass land they are invaluable, and will indeed suit most crops; their chemical composition shows this, and actual experience proves it. Some may be inclined to ask where can they be had? The reply is from steamboats, saw mills and so forth, in fact from any fire consuming wood! There can be but little doubt that stokers, engineers, and so forth would save these ashes instead of throwing them overboard or otherwise wasting them as they do now, if any one would make it at all profitable for them to do so. As for ammonia, the gas works could make any quantity if it were needed or rather demanded! What becomes of the bones, blood and other waste of animals consumed in the Colony? What of the cess-pools and so forth? Here is a Colony importing the greater part of what it consumes and yet calling out for manure? How is the land wasted by bad farming? To import guano is an excuse for idleness or ignorance, nevertheless import, if any one can make a profit by its sale! Although wood ashes are an excellent manure, there is perhaps nothing more injurious to land than burning down the forest. The reason is, that intense fires entirely destroy all the vegetable matter, leaving the soil about as good as ground bricks for cultivation; and here perhaps is one reason why forest lands are very often poor, viz. on account of the fires that have previously passed through them. Let any one examine a piece of land that has been fiercely burned and he will find how utterly unproductive it has become. To burn brush upon the landdoes good or appears to do good because the ash resulting from the burnt vegetable matter does more good than the mild fire does harm It is vastly different with a raging fire. One lesson may be learned from this, viz, not to burn heavy timber upon land—save perhaps during the winter when the sodden condition of the ground will in some measure protect it from injury. Whenever a fire destroys a great portion of forest it will be well if the Government or some one would sprinkle grass seed upon it; the seed would grow and produce a scanty crop of grass, and at the same time from prarie lands, and prevent the forest resuming its command. In this way a considerable amount of good and profit might be had for the country with very little outlay and inconsiderable trouble.

BUMPKIN.

Minister Marfori and the Queen--Who is Marfori.

[From the Paris Siecle, Oct. 1.]

At the moment of going to press we learn that Marquis Concha, Marquis de la Havana and his brother, the Marquis del Duero, have written to the Queen to inform her that in consequence of her refusal to go to Madrid alone—that is to say, without M Marfori—they do not believe themselves able to answer for the situation. On the receipt of this communication the Queen is said to have been greatly excited and to have immediately ordered Pexuela, Count de Cheste, to come to her in order to form a complete Ministry, which should be established at St Sebastian.

The *Figaro* gives the following details concerning Marfori, Marquis de Loja, Queen Isabella's intendant. He was born in the town from which he takes his title, and being of the same province as Narvaez obtained a civil post from that Minister and was rapidly promoted in the Finance Department. He afterwards attracted the notice of her Majesty, and became successively Governor of Madrid, Senator, Minister of the Colonies, Grand Cross of several Spanish orders, received the title of Marquis and was appointed Intendant of the Palace. He is, however, exceedingly unpopular out of doors for the severity which he displayed towards the political prisoners in 1856. He is a tall, good looking man, with black hair and beard, but not of polished manners.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Europe.

MEMPHIS, Nov 28—The *Appeal's* Arkansas correspondent says, that on the 10th a body of two hundred men, claiming to be militiamen, entered the town of Centre Point, arrested all the inhabitants marched them into an open field, placed a guard over them and proceeded to sack the town, after which they left. They afterwards returned and fired upon the people, shooting down a number of them, arresting three of the oldest and best citizens, carried them into the field and shot them.

LONDON, Nov 28—Great preparations are being made at Birmingham for the reception of Reverdy Johnson on Wednesday next. John Bright and others will speak.

The dinner to Mr Johnson, which was contemplated by the Workingmen's Society of this city has been abandoned.

PARIS, Nov 28—The present *Moniteur* loses its official character on New Year's Day, the *Moniteur* official, Delamphier, will then appear.

LONDON, Nov 28—The *Times* of to-day gives the result of the election for the members of the House of Commons, of the Liberals 318; Conservatives 266. Liberal majority 115.

PARIS, Nov 28—The *Patrie* of yesterday says, a large faction in Spain favors the formation of a triumvirate for four years.

FLORENCE, Nov 28—A serious outbreak occurred at Bologna, and fresh troubles are feared; the disturbance originated through the refusal of the peasants to pay taxes; 10 persons were killed and 7 wounded.

Despatches announce that Etna is again in a state of eruption.

LONDON, Nov 28—The press unite in commending Disraeli for his refusal of the Peerage and its bestowal on his wife. Journals also eulogise the career of the Premier.

MADRID, Nov 28—The Government has declared the popular sense of the country is antagonistic to the establishment of a Republic, and that the Cortez, soon to meet, will surely propose a form of Monarchy

MADRID, Nov 26—The Provisional Government has appointed December 18th as the day for holding the election, for the Cortez has positively denied that the Spanish squadron in the Pacific has refused to give in its adhesion to the Revolutionary Government.

LONDON, Nov 26—Riots occurred in Longtown and Brampton, Cumberland. The military were called out to suppress the disturbances. Quiet is now restored.

MADRID, Nov 26—An immense and enthusiastic demonstration was made at Saragosa yesterday in favor of a Republic. A meeting was held, and resolutions adopted declaring that it is the will of the people that Spain should have a Republican form of government. The monarchists have also held large meetings in several cities.

California.

SAN FRANCISCO, Nov 27—The steamer Oriflamme from Portland.

Salled—Nov 25—Steamer Continental for Victoria and Astoria. Nov 26, San Salvador ship Great Pacific, Port Townsend; French bark Angele, Port Townsend; bark Leonede, Burrard Inlet.

Eastern States.

NEW YORK, Nov 28—A correspondent of the *Pall Mall Gazette* says Garibaldi is about to leave his Island and emigrate to America.

European Mail Summary.

The safety of Dr Livingstone is now placed beyond doubt. Sir Roderick Murchison, in a letter to the *Times*, points out how correct he has been in his predictions. Even the route of his journey homeward Sir Roderick marked out. It appears that Livingstone has been living during three months with friendly Arabs, and waiting for the close of a native war before proceeding on his way to Ujiji; and he told the Arab messenger that after exploring Lake Tanganyika, he intended to return to Zanzibar. His further delay may be accounted for by the fact that when he wrote he was unaware of what discoveries had been made by Sir Samuel Baker. The map of Baker has been transmitted to him. In Sir Roderick's opinion Livingstone would at once see from it that 'it was more than ever incumbent on him to try to solve the great problem of the Niletic watershed of Africa, by determining whether these great lakes are united or separated by high lands, and, if separated, by ascertaining into what river system Taganyika discharges its surplus waters.' He would, in doing this, be once again prevented from making immediately for the coast. But it is by no means improbable that he will be at Zanzibar before Christmas.

The South German States have agreed upon a common plan of mobilization. As a matter of course it is not to be divulged—being there as in Prussia, considered a State secret.

A large Belgian vessel arrived recently at Civita Vecchia having on board for the Papal government a considerable number of Remington rifles, 500 kegs of powder, 200,000 cartridges and 60 tons lead.

Referring to the imperial ukase forbidding the practice of homœpathy in Russia, an Italian paper says—'That is perfectly correct, as homœpathy only flourishes in the presence of progress, civilization and liberty.'

On October 9th the great cone of Vesuvius burst open and streams of lava flowed towards the Atrio del Cavallo. Slight shocks of earthquake were felt and the instruments in the observatory were severely agitated.

Rich gold fields have been discovered on the Northern frontiers of Norway and Russia—stated to surpass those of California. The severity of the climate will however prevent the placers being worked by emigrants from Southern and middle Europe.

The city of Palermo, Sicily, was recently disturbed by about 400 Garibaldians attacking the office of the Bourbon organ the *Ape Iblea*, and making an *auto-da-fe* of the contents, to which were added shouts of 'Viva Garibaldi!' 'Death to the clergy!' etc.

Correspondence from Rome suggests that the fall of Queen Isabella will be a sad blow to the Papal government, considering that under her reign $1,000 were sent to Rome daily as St Peter's pence. In these hard times even a government cannot well miss such a contribution.

The magistrates of Colchester, England, recently sentenced a young girl to 21 days imprisonment and hard labor for having plucked a branch of lavender. Although stunned by such severity, on leaving the court she said to the magistrates—'May God punish you.'

Near to the aquarium in the Exhibition at Havre, France, there are two stands very opposite in character. In one a man gives away Bibles, and in the other a beautiful young girl sells at the most extravagant prices bottles of Toilet Water of the Immaculate Conception.

A person of distinction arrived recently at Biarritz from Spain, and on being presented to the Emperor of the French the latter inquired how matters stood at Madrid. 'All goes on well, sire, and quiet reigns everywhere.' 'Ah,' replied the Emperor smiling, 'the people and the revolution are not out of their honeymoon yet.'

The Paris *Charivari* represents the present state of affairs in Europe by a huge cobweb suspended between two stands of arms. The various European budgets are gradually approaching it in the shape of insects. A huge spider—armed peace—is on the lookout ready to seize the prey. The same paper represents a Prussian grinning at a French soldier—between the two stands the reverend figure of Rhine. 'Now my little fellows, if you grin much longer at each other you will end in a muss.'

An autograph letter of the Pope has been delivered by special messenger to King William of Prussia: What the contents may be is unknown. It is hoped they do not refer to the invitation lately addressed to all Protestants to bow to his authority, so that they may avoid his curse. It would be a bootless errand. The established church in Prussia has been so incensed by his addressing them as his erring children that, by order of the Central Consistory, a declaration will be read from the pulpit in all churches and chapels of that country, declining the invitation and repelling the arrogance with which it is accompanied.

The *Fischietto* of Turin, gives some good caricatures on the Spanish revolution. One respresents Queen Isabella reclining on bags of money, enjoying a cigarette, to which is added:—'The journal *La France* states that the bed of a dethroned prince must be very hard. Isabella knows it well, poor thing!' Another shows Isabella endeavoring to withdraw a huge jagged fishbone (recognition of the Provisional government) from her throat. The protest is lying torn at her feet, and she is surrounded by monks and priests in extreme despair—'A poor invalid, who has now got, in addition to other evils, a nasty bone in her throat that throws consternation among her friends.'

Let us chronicle an important step towards unity of North and South Germany, a pigmy effort to cross the Main line, and one, too, which ought to make both sides blush. It is no less than a treaty between Prussia and Bavaria of a very arbitrary nature concerning press prosecutions. An instance in point is the Hamburg journal called the *Freischutz*, which has been refused circulation in Mecklenburg-Schwerin by order of the Government post authorities. The editor makes his appeal now to the Bund Chancellor on the ground that according to the law of the North German Confederation no political journal can be excluded from the benefit of being forwarded by post.

Accounts from Paris state that the Hanoverian legion of ex-George has increased from 740 to 1400 men. In Hildesheim, near Hanover, there has been another recent judgment respecting contempt of majesty. A servant maid has been condemned to two month's imprisonment for singing a Hanoverian song, and a boy was fined ten thalers for shouting 'Cuckoo' after a Prussian policeman.

A present lately made by a very rich and pious family in Hanover to the Crown Prince on his birthday consisted of a silver shield, one and a half feet in diameter, with a gold edge on which is represented St George in the act of slaying the dragon, with the motto, '*In hoc signo vinces.*' On the reverse is engraved a text from Scripture. Upon receiving this present the Crown Prince is reported to have said that he had the firm conviction he should return within five years to the throne of his ancestors. There exists no Germany, in the political sense of the word, now. If Hanover were to rise and reclaim its rightful dynasty this could not be called treason against Germany. As regards Hanover's present position it can only be looked upon as a hostile occupation. His adherents, he said, should, however not damage the cause by a premature movement. Of the position towards France he remarked that it was a calumny that Guelphs were seeking support from foreign aid; they needed neither the intervention of Austria nor of France to obtain their rights sooner or later

Some wiseacres discovered that General Prim's proper name is Prise, and that he is German born, having in his youth enlisted in the Spanish army. An industrious watchmaker at Potsdam has preferred a suit to recover thirty thalers for a dial sold to him many years ago, and requested the Foreign Department to ascertain the identity of said Prise or Prim. Other ingenious people here pretend that the notorious Marfori is also a Teuton. What next? We are in a fair way, if other Spanish grandees turn out to be Germans, to annex Spain, or at least force the Junta to bear a part of the Prussian budget.

Le Temps of Paris complained of the non-arrival of Spanish newspapers, implying that this was due to their having been seized at the Post-office, to which accusation the *Moniteur* replies by assorting the fact that from the 20th of September, the day on which the revolution broke out, up to date there has been but one single Spanish paper seized.

HOLLOWAY'S PILLS.—Invalids distracted by indigestion and discouraged in their search for its remedy should make trial of this never-failing medicine. A lady, long a martyr of dispeptic tortures, writes that Holloway's Pills made her feel as if a burden had been taken off her. Her spirits, formerly low, have greatly improved; her capricous appetite has given place to healthy hunger; her dull, sick headache has departed' and gradually so marvellous a change has been effected, that she is altogether a new creature, and again fit for her duties. These Pills may be administered with safety to the most delicate. They never act harshly, nor do they ever induce weakness; they rightly direct deranged, and control excessive action. 1

Steadies the Nerves and Tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weaknesses, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S, BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attaks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousand who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieve the Constipation superinduced by irregular action of the digestive and secretive organs.

VICTORIA PERFUMERY
YLANGYLANG.
ROI DES PARFUMS
RIGAUD AND Co. PARIS

45 Rue de Richelieu.

THE KING OF PERFUMES.

THE VICTORIA PERFUMERY is now adopted by the ELITE of the arstocracy and fashionable world on account of the superior articles for the toilet each of which has been made a speciality.

The new perfumes prepared with the ESSENCE of YLANGYLANG extracted by distillation from the UNONA ODORATISSIMA and imported from the Philippine islands are beyond comparison for their delicacy and sweetness. We therefore recommend the BEAU MONDE to try as a handkerchief perfume.

THE EXTRACT OF YLANGYLANG
AND
THE MANILLA BOUQUET

Besides these, which are the exclusive property of their house, Messrs Rigaud and Co prepare in a most approved and superior manner all the fashionable scents, amongst which we may mention the

Ess Bouquet	Wood Violet	Mignonette
Jockey-Club	Marechale	Jessamine
New Mown Hay	Mousseline	Magnolia
Field Flowers	Rondeletia	Moss-Rose

RIGAUD'S TOLUTINE

Is an admirable toilet-water, the true talisman of beauty, preserving the freshness of the skin and the fairness of the complexion. It is the perfection of science adapted to the toilet, and is incontestably superior to Eau de Cologne, or the most esteemed of vinegars and the Florida water.

THE MIRANDA HAIR-OIL AND POMATUM.

Is a remarkable preparation which may be called a real treasure for the hair. It is composed of tonic and fortifying compound, and it beautifies and preserves the hair at the same time as it imparts to it a most refreshing perfume.

MIRANDA SOAP,

COMPOSED MAINLY OF THE MILK OF THE LETTUCE AND THE LILY.

A simple comparison of this soap with others sold by the perfumery trade, suffices to prove its superiority. It gives the skin a delightful surface, it lathers abundantly, forming a real milk-bath, and is all that can be desired as to perfume.

DENTORINE
AND TOOTH-PASTE.

THE DENTORINE is a pleasant elixir for the teeth; it perfumes and refreshes the mouth, strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution in this class of toilet necessary, and has done away with powders and opiates that are more or less acid and dangerous. A brush passed over it produces a soft and unctuous mucilage that gives the teeth a brilliant whiteness.

THE ROSE POWDER

Preserves the skin from the roughness of the wind and the cold, gives it a soft freshness, and prevents red spots and freckles. It is far superior to rice and starch powders, and it is deliciously perfumed.

Premium Purchasers of Two Articles of RIGAUD & CO., are entitled to receive Gratuitously the

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertized in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE,
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules in more chronic cases.
